

# 1 Iteration Workflow

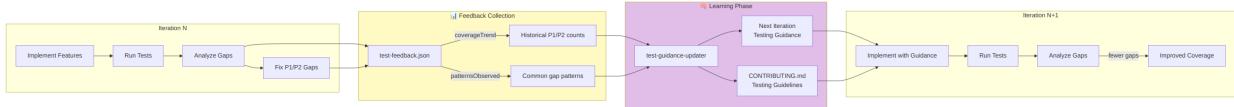

## 1.1 Overview Diagram

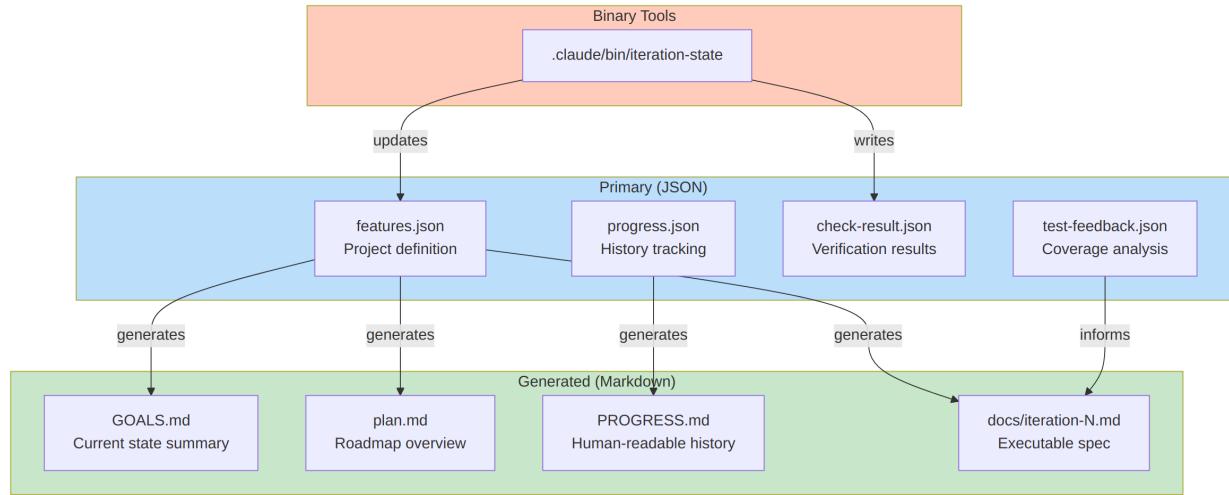

## 1.2 Detailed Flow

## 1.3 Test Feedback Loop

## 1.4 File Flow

## 1.5 Key Concepts

### 1.5.1 JSON-Primary Output

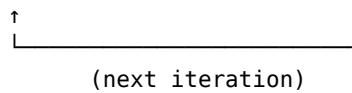

- `features.json` is the source of truth for project structure
- `progress.json` tracks historical completion data
- Markdown files are generated summaries for human readability

### 1.5.2 Test Feedback Loop

1. **Iteration N:** Test coverage analyzer finds gaps (P1-P4)
2. **Fix Phase:** P1/P2 gaps are fixed immediately (blocking)
3. **Learning Phase:** test-guidance-updater analyzes patterns
4. **Iteration N+1:** Testing guidance prevents recurring gaps

### 1.5.3 Status Transitions

`pending` → `in_progress` → `complete`

### 1.5.4 Priority Levels

	Priority	Type	Blocking?
P1		Core functionality	Yes

	Priority	Type	Blocking?
P2		Error handling	Yes
P3		Edge cases	No
P4		Domain-specific	No
